LOGIQ F6
I can diagnose with confidence
FOCUS ON IMAGE QUALITY

With the LOGIQ F6, exceptional image quality helps you provide your diagnosis. Clarity helps you detect abnormalities or small pathologies.

Enhanced image contrast helps you distinguish between tissue types. The ability to image both superficial and deep anatomy, with excellent penetration, helps you image confidently.

Incorporating established capabilities from GE’s flagship ultrasound systems, the LOGIQ F6 provides you with an affordable way to offer the advantages of advanced, high-performance ultrasound to your patients.

Advanced tools and intuitive protocols help simplify image acquisition and enhance your overall image quality, with our suite of features including:

- Phase Inversion Harmonic Imaging
- CrossXBeam*
- Speckle Reduction Imaging

Forward-thinking capabilities allow you to enhance spatial and contrast resolution and sharpen border definition for outstanding image clarity.

FACILITATE SHARED SERVICES

Thanks to the LOGIQ F6 shared services capabilities, users in multiple care areas can image patients of various ages and sizes in diverse clinical areas—all with one intuitive ultrasound machine. Use advanced applications and a wide range of transducers to perform exams, including:

- Abdominal
- Obstetrical & Gynecological
- Small Parts
- Musculoskeletal
- Vascular & Peripheral Vascular
- Urological
- Pediatric
- Transcranial
- Cardiac
FURTHER YOUR CAPABILITIES
Advanced clinical capabilities such as Auto IMT, 3D/4D, and B-Steer are optional features that help you expand the applications of your ultrasound practice. The LOGIQ F6 allows you to use one system that fits the needs of various departments.

FACILITATE FAST WORKFLOW
Ease-of-use tools on the LOGIQ F6 help you reduce scan time, standardize exam protocols and reports. Expertly optimized image settings such as Auto Optimization help you quickly adjust image quality with the touch of a button, while personalized, simple-to-change settings provide flexible exams. The potential result: enhanced productivity, standardized protocols, and additional patient focus.

Scan Assistant is a customizable scanning program that helps decrease keystrokes, shorten exam time and enhance exam consistency.

FULFILL SUPPORT NEEDS
GE continues to support you beyond the product with education programs and online resources. You have access to product and applications videos to help ease your transition to a new system or support your need for more detailed information about advanced features.

Scan Coach is our on-demand education tool that can be used while live scanning. Scan Coach displays vital information which helps aid the user in getting the right scan plane.

With three years of comprehensive service coverage included, the LOGIQ F6 systems give you value and peace of mind right from the start. If a service event ever occurs, GE is ready to respond quickly with customer support and modular repairs to get your system back in use.
